WORK EXPERIENCE

Capital.com Online Investments LLC

2024 - 2025

QA Engineer

- Performed end-to-end manual testing of web and mobile trading applications, including functional, regression, and UI testing.
- Developed and maintained test documentation: test cases, checklists, and detailed bug reports.
- Created project assets such as AppMap and a business glossary to improve team alignment.
- Analyzed requirements and contributed to QA process improvements for higher product quality.

Alpha Ecosystem LLC

2025

QA Engineer

- Created comprehensive test documentation from scratch: test cases, checklists, bug reports, test plans, ensuring full requirements coverage.
- Conducted functional, regression, integration, and exploratory testing.
- Configured and maintained test environment, monitored product quality metrics.
- Performed backend API testing (REST/SOAP) and automated end-to-end scenarios.
- Independently fixed frontend bugs (HTML/CSS) related to layout and user interface.
- Mentored and trained new QA team members, accelerating their onboarding process.
- Fully managed and maintained project Kanban board, tracking progress of all team tasks.
- Participated in sprint planning and retrospectives, ensuring continuous process improvement.

EDUCATION

Georgian Technical University

2020 - 2024

Information technology

MZIURI , Python programming

2024 - 2025

Python programming language course

Course Vadim Ksendzov, QA Manual

2025

Software testing Web/Mob

Course Vadim Ksendzov, QA Manual

2025

Software testing Mob

ABOUT ME

QA Engineer with full-cycle testing experience, from requirements analysis to regression. Strengths: API testing (Postman), writing test documentation, and decomposing complex functional blocks. I'm ready for complex challenges and a quick learner.
